## (CONFIDENTIAL DOCUMENT)

# 2020 NATIONAL SENIOR CERTIFICATE EXAMINATION STATISTICS

## INTRODUCTION

In 2020, a total of 11 608 full-time candidates, including progressed candidates wrote the National Senior Certificate Examination in the Northern Cape Province. A total of 7 665 candidates passed the examination obtaining an overall pass rate of 66.0%. The pass rate for this year has declined by 10.5% from 76.5% in 2019. Without the progressed learners, the pass rate would have been at 76.1%, a slight decrease of 1.5% from the 77.6% obtained by the same cohort in the previous year.

Although the pass percentage has dropped considerably, 675 more candidates have passed compared to those in 2019. The number of distinctions has also increased by 268 and the number of candidates achieving at a Bachelor's level has increased by 527.

The poor performance of the progressed candidates impacted the results negatively. Compared to the pass percentage of 60% in 2019, only 24.5% of the progressed candidates passed the 2020 National Senior Certificate examination. Out of a total of 2 427 progressed candidates who registered, 2 265 wrote the examination and only 554 passed.

The poor attendance of progressed learners with the re-opening of schools after the COVID-19 lockdown contributed towards their underperformance due to a lack of tuition and consolidation of the work.

Fewer schools achieved a 100% pass rate. The high enrolment schools as well as the schools that normally do well also slipped with regard to their pass rate.

The subject combinations offered by schools played a major role in the performance of learners. The combination of subjects combined with especially Life Sciences and Business Studies and to a lesser degree Mathematics, Physical Sciences and Geography seems problematic.

**The 2020 NSC results statistics are based on performances which includes progressed learners.**

**The graph depicts the pass rates from 2016 to 2020**
